

Werlinger & Associates, Inc.
TECHNICAL CONSULTANTS

Technical people...solving technical problems!

For the past 30 years, Werlinger & Associates has provided technical consulting services designed to assist the Insurance Industry with damage assessment, loss mitigation, corrective action analysis, cost valuation, and claim evaluation.

Werlinger & Associates' technical staff provides consulting services on all types of equipment, production, and system-related disciplines, including:

- **Information Technologies**
- **Telecommunication**
- **Electronics/Electrical**
- **Mechanical/Manufacturing**
- **Medical/Laboratory**
- **Semiconductor**
- **Transmission/CATV**
- **Software/Data**
- **Aerosciences**
- **Media/Studios**

Werlinger & Associates' accomplished and dedicated personnel possess the expertise and experience needed to assist our clients with the challenges of today's highly technical property damage claims.

Werlinger & Associates' experienced technical staff understands the requirements of Insurance Adjusters with complex technology losses.

We provide the technical details, analyses, corrective action options, and repair/replacement cost values to assist our clients with analyzing, documenting, and settling losses. Our services to the Insurance Industry include:

- **Technical Evaluation to Determine Scope of Damages and Required Corrective Actions**
- **Repair Versus Replacement Analysis**
- **Analysis of Technical/Production Impact and Resolution of Problems to Mitigate Business Interruption**
- **Expeditious and Cost Effective Recovery Solutions**
- **Comparable Replacement Analysis (RCV and ACV)**
- **Detailed and Comprehensive Reports**
- **Claim Evaluation and Documentation**
- **Catastrophe Response Team**

Technical people...solving technical problems!
